

**18 NCAC 07J .0907      RECORDING CAPABILITY**

A platform provider's communication technology shall:

- (1) permit recording of a remote electronic notarial session; and
- (2) provide the electronic notary public with the controls to:
  - (a) initiate a communication technology recording;
  - (b) conclude a communication technology recording; and
  - (c) allow creation of a session record in accordance with the rules in this Subchapter.
