

18 NCAC 07J .1609 NOTIFICATION OF IMAGE ALTERATION

A credential analysis solution shall:

- (1) detect whether the image of a remotely located principal, whether on screen or as presented on the credential, appears to be:
 - (a) altered;
 - (b) unnatural; or
 - (c) simulated; and
- (2) pursuant to Rule .1608 of this Section, report if credential analysis finds the appearance of alteration, unnaturalness, or simulation of the image of the principal.

History Note: Authority *G.S. 10B-4; 10B-125(b); 10B-126; 10B-134.15; 10B-134.17; 10B-134.19; 10B-134.21; 10B-134.23;*
Eff. July 1, 2025.
