

21 NCAC 66 .1109 VETERINARY CARE

(a) A written Program of Veterinary Care (PVC), to include disease control and prevention, vaccination, euthanasia, disposition of diseased, ill, injured, infirm or deformed animals, and provision of adequate routine and emergency veterinary care, shall be established by the owner and supervising veterinarian at each facility. The following is required of each PVC:

- (1) the PVC for boarding kennels shall be submitted as part of the application and must be approved by the Board;
- (2) the facility shall implement and follow the PVC; and
- (3) changes to the PVC shall be submitted for approval to the Board within 10 days of the effective date.

(b) If there is an infectious disease outbreak that persists for more than seven days at the facility, the facility owner shall consult with a veterinarian for procedures to mitigate the problem. This consultation shall be documented by the facility.

(c) If there is a disease problem that persists for more than 30 days at the facility, the facility operator shall obtain and follow a veterinarian's written recommendations for correcting the problem. These recommendations shall include, at a minimum: sanitation of primary enclosures, common areas, exercise areas and accessories, and protocols for animal intake, evaluation, isolation, disease recognition and treatment, and euthanasia.

(d) Each dog and cat shall be observed daily by the animal caretaker who has been adequately trained, or is experienced in animal care, or is under the direct supervision of a person who has such training or experience. Sick or diseased, injured, lame, or blind dogs or cats shall be provided with veterinary care.

(e) All animals in a facility shall be in compliance with the North Carolina Rabies Law, G.S. 130A, Article 6, Part 6.

(f) Boarding kennels shall not administer a prescription medication, tranquilizer, sedative, or any pharmaceutical drug designed to calm an animal unless the medication or drug is administered under the direction of or by prescription from the animal's veterinarian, and written permission from the animal's owner. In the event a boarding kennel agrees to administer such medications or substances, the medications shall be in the original container issued by the veterinarian or pharmacy and administered according to label directions. The administration of these medications or substances shall be documented as required by Rule .1001 of this Chapter.
